DEPARTMENT OF INFORMATION AND COMMUNICATION TECHNOLOGY
COURSEWORK ASSESSMENT (SESSION: 2 2025/2026)

COURSE CODE	:	DFK20013
COURSE NAME	:	WEB DESIGN TECHNOLOGY
ASSESSMENT TASK	:	**PRACTICAL WORK 1**
TOPIC	:	1.0 INTRODUCTION TO WEB DEVELOPMENT AND BOOTSTRAP 2.0 HTML AND CSS ESSENTIALS WITH BOOTSTRAP
CLO 1	:	Construct a program using HTML, CSS and JavaScript in developing web and mobile application (PLO3, P4).
Duration	:	3 hours

CLO	MARKS
CLO 1P	
Total marks	**/100**

INSTRUCTION:

This task must be completed as a group consisting of 3 members recommended, maximum 4 members only. Read the QUESTIONS and refer to attached RUBRIC for MARKING SCHEME carefully.

QUESTION 1

Apply an appropriate multi-page website structure and file organisation for the UPROP website. You are required to develop a four (4)–page interconnected website for **UPROP (Unit Pengurusan Projek Pelajar), JTMK, PSP** with the following pages:

1. index.html (Index)
2. about.html (About UPROP)
3. info.html (Info & Guidelines)
4. contact.html (Contact Us)

i. Layout Structure Requirement

Each webpage must apply a consistent and semantic HTML layout structure consisting of **Header**, **Main**, and **Footer**, as illustrated as Figure 1 below.

The same layout structure must be reused across all four webpages. Only the content within the **<main>** section should differ according to the purpose of each page.

```
<!-- Header Section -->
<header></header>

<!-- Main Content Section -->
<main></main>

<!-- Footer Section -->
<footer></footer>
```

Figure 1: HTML layout structure

ii. Navigation Bar Requirement (Compulsory for ALL pages)

Apply a consistent **Bootstrap navigation bar** on every webpage with the following layout requirements:

- The navigation bar must be placed inside the **Header** section.
- The left side of the navigation bar must display a **website icon (logo)** and **site name** (e.g., *UPROP JTMK*).
- The right side of the navigation bar must display the navigation links to all four pages: **Index, About UPROP, Info & Guidelines, Contact Us**.
- The navigation bar must be **responsive**, collapsing into a toggle menu on smaller screens.
- The active page must be indicated appropriately using Bootstrap classes.

iii. Bootstrap Framework Requirement

- Apply the Bootstrap framework using a **Content Delivery Network (CDN)**.
- Ensure Bootstrap is applied consistently across all four webpages.

iv. External CSS Requirement

- Apply **one (1) external CSS file** for the entire website.
- The external CSS file must be linked consistently to all four webpages.

v. Overall Consistency Requirement

- Ensure the **same header and footer structure** is applied consistently across all four webpages.
- Ensure the **Bootstrap framework and external CSS file** are used consistently throughout the website.
- Navigation between all pages must function correctly.

Question 1 (a)

Apply an appropriate layout and framework setup for the **Index page (index.html)** of the UPROP website **by referring to the page structure shown in Figure 2**.

i. Grid System Requirement

- Apply at least **one (1) Bootstrap row** within the main content area.
- Divide the row into **two (2) columns** using appropriate Bootstrap column classes:
  - **One column** for supporting or overview content
  - **One column** for main introductory content
- Ensure the grid layout is **responsive**, where the columns **stack vertically on smaller screen sizes**.

ii. Bootstrap Components Requirement

Apply **all** of the following **three (3) Bootstrap components** on the Index page (**excluding the navigation bar**):

1. **Card** – to present role summary, highlights, or key information.
2. **Accordion** – to present the *Carta Alir Pelaksanaan Projek* in a structured manner.
3. **List Group** – to display quick links, supporting information, or related content.

Additional Bootstrap components such as **badges**, **alerts**, **tables**, or **buttons** may be included as **optional enhancements**, where appropriate.

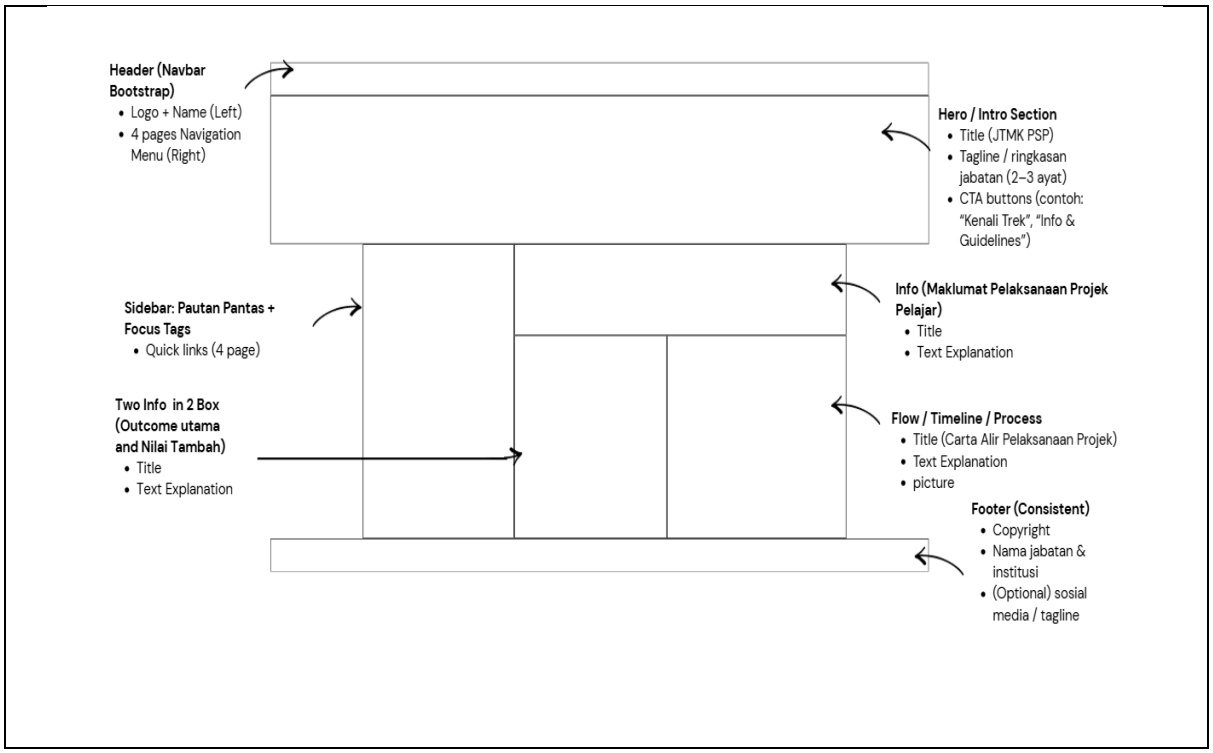

Figure 2: Index.html page structure

Question 1(b)

Apply an appropriate layout and framework setup for the **About UPROP page (about.html)** of the UPROP website **by referring to the page structure shown in Figure 3**.

i. Grid System Requirement

- Apply at least **one (1) Bootstrap row** within the main content section.
- Organise the page content using an appropriate **Bootstrap grid layout**, such as:
  - A **two-column layout** using suitable column classes (e.g. col-lg-4 and col-lg-8):
    - **One column** for overview or introductory information about UPROP (e.g. scope of operation or general description).
    - **One column** for detailed information about team structure, roles, or responsibilities.
  - A **multi-column layout** for team presentation:
    - Use appropriate column classes (e.g. col-md-6, col-lg-4) to display team roles or responsibilities in a structured grid format.
- Ensure the layout is **responsive**, adapting appropriately on smaller screen sizes.

ii. Bootstrap Components Requirement

Apply **at least three (3)** Bootstrap components appropriately on the About page from the list below:

- **Card** – to present team roles, responsibilities, or unit information in a structured format.
- **List Group** – to list the scope of operations, functions, or duties of UPROP.
- **Badges** – to highlight roles, task categories, or key responsibilities within the team structure.
- **Alert** – to display important notes, good practices, or highlighted information.
- **Progress** – to visually represent process status, overview, or level of implementation.
- **Buttons** – to provide call-to-action elements such as navigation or contact actions.

The selected components should be **used appropriately according to the content and layout of the About UPROP page**.

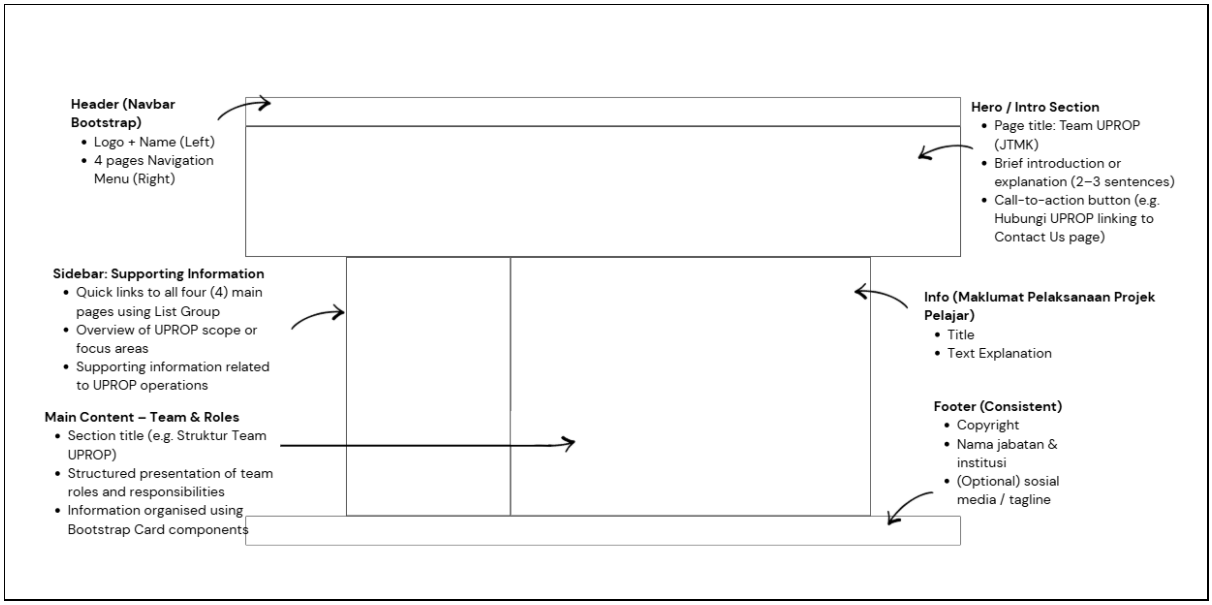

Figure 3: About.html page structure

Question 1(c)

Apply an appropriate layout and framework setup for the **Info & Guidelines page (info.html)** of the UPROP website **by referring to the page structure shown in Figure 4**.

i. Grid System Requirement

- Apply a **Bootstrap container** to organise the overall page content.
- Apply at least **one (1) Bootstrap row** within the main content section.
- Structure the content using an appropriate Bootstrap grid layout, such as:
    - A **multi-column layout** (e.g. col-md-6, col-lg-3) to present checklist items or key information, and/or
    - A **full-width layout** for summary or tabular information.
- Ensure the layout is **responsive**, adapting appropriately across different screen sizes.

ii. Bootstrap Components Requirement

Apply at least **three (3) Bootstrap components** appropriately on the Info & Guidelines page, such as:

- **Card** – to present key checklist items or guideline summaries in a structured format.
- **Table** – to summarise project deliverables, purposes, and required evidence.
- **Badge** – to highlight categories or importance of deliverables.
- **Alert** – to display important notices or reminders related to project requirements.
- **Button** – to provide call-to-action elements such as contacting UPROP or navigating to related pages.

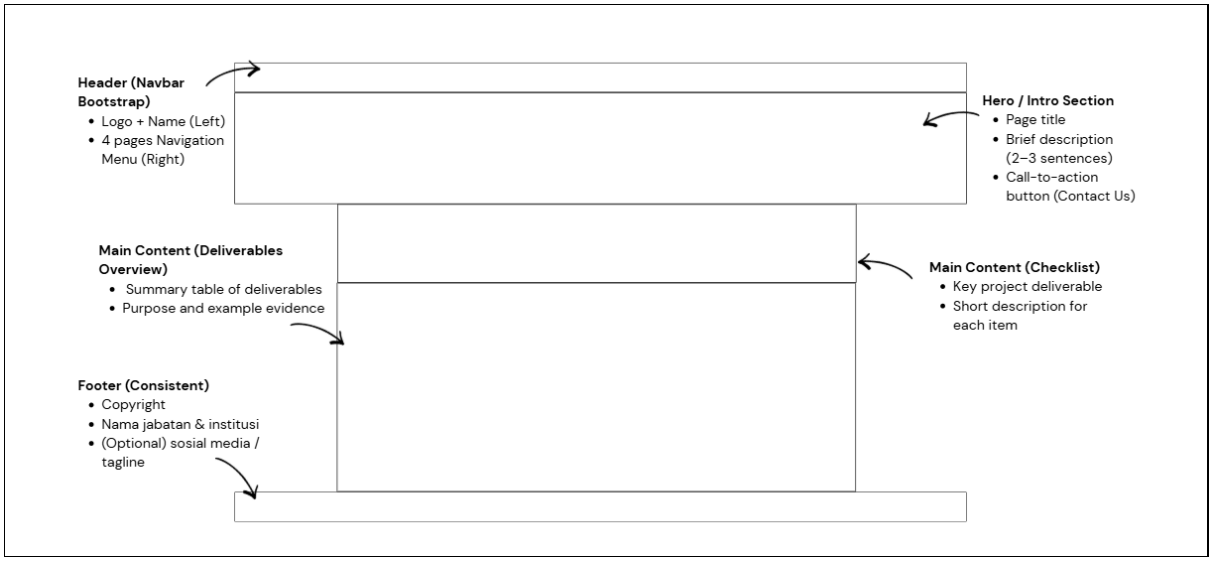

Figure 5: Info.html page structure

Question 1(d)

Apply an appropriate layout and framework setup for the **Contact Us page (contact.html)** of the UPROP website by referring to the page structure shown in **Figure 5**.

i. Grid System Requirement

- Apply at least **one (1) Bootstrap row** within the main content section.
- Divide the row into **two (2) columns** using appropriate Bootstrap column classes (e.g. col-lg-4 and col-lg-8 or equivalent):
  - **Column 1:** Contact information panel (e.g. email, phone number, location) and a short note.
  - **Column 2:** Enquiry form section for user input and submission.
- Ensure the layout is **responsive**, where the columns stack vertically on smaller screen sizes.

ii. Bootstrap Components Requirement

Apply at least **three (3) Bootstrap components** appropriately on the Contact Us page:

- **Card** – to group the contact information section and/or the enquiry form section in a structured layout.
- **Forms** (form controls) – to create the enquiry form using suitable input elements (e.g. text input, email input, select dropdown, textarea, and buttons).
- **Alert** – to display a notice, reminder, or information message related to submission or contact procedure.
- **Buttons** – to provide form actions such as *Submit (Hantar)* and *Reset*.

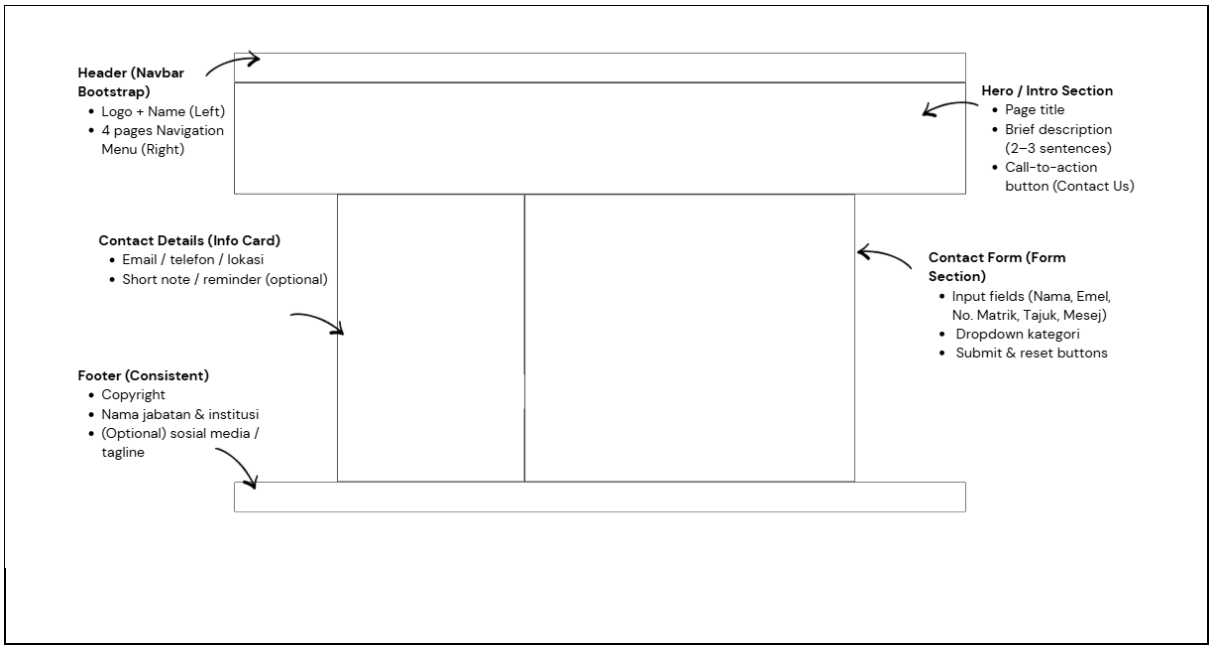

Figure 5: Contact.html page structure

SUBMISSION REQUIREMENT

Submission Folder Must Contain:

- index.html (main file)
- css/style.css
- images/ (project images, if any)
- Additional HTML files (about.html, info.html, contact.html)
- **Report file**

Report Must Include:

1. **Answer sheet for each part**, including:
    - Copy of coding (HTML, CSS, Bootstrap implementation)
    - Screenshots of the website output (desktop and mobile views)
2. **Group reflection write-up**, aligned with the *Conclusion / Reflection* section created in the website.

Evaluation Criteria

- Refer to the **rubric provided in the appendix** for detailed scoring components.

RUBRIC

COURSE CODE	:	DFK20013
COURSE NAME	:	WEB DESIGN TECHNOLOGY
ASSESSMENT TASK	:	**PRACTICAL WORK 1**
TOPIC	:	1.0 INTRODUCTION TO WEB DEVELOPMENT AND BOOTSTRAP 2.0 HTML AND CSS ESSENTIALS WITH BOOTSTRAP
CLO 1	:	Construct a program using HTML, CSS and JavaScript in developing web and mobile application (PLO3, P4).
Duration	:	3 hours

This performance scale must be applied to every criterion in the rubric.
If the student attempts the task (**YES**), select the score (**4, 3, 2, or 1**) that best represents the quality of work based on the descriptors below.

Score	Descriptor
1	Student performs with incorrect setup or over-dependence on AI without understanding
2	Student performs with some errors affecting functionality
3	Student performs with minor issues that do not affect functionality
4	Student performs successfully with correct, complete, and functional output

ANALYTIC RUBRIC

NO	CRITERION	MARKS
A. General Website Structure & Consistency – 20 marks		
A1	Applies a consistent and semantic HTML layout structure (header, main, footer) across all webpages.	/4
A2	Designs and displays a consistent navigation structure across all pages with correct links and clear page indication.	/4
A3	Correctly links and applies the Bootstrap framework via CDN consistently across all webpages.	/4
A4	Correctly links and applies one external CSS file consistently across all webpages to ensure uniform styling and visual consistency.	/4
B. Index Page (index.html) — 20 marks		
No	**Criterion**	**Marks**
B1	Constructs a responsive Bootstrap grid layout using at least one row divided into two content areas that adapt across screen sizes.	/4
B2	Presents role summary, highlights, or key information using structured content presentation with appropriate Bootstrap styling.	/4
B3	Organises process/flow information in a structured and readable format aligned with the page layout requirements.	/4
B4	Displays supporting information or quick reference content in a clearly grouped and well-organised layout.	/4
C. About UPROP Page (about.html) — 20 marks		
No	**Criterion**	**Marks**
C1	Organises content using an appropriate Bootstrap grid system (two-column and/or multi-column layout) that remains responsive.	/4
C2	Presents team structure, roles, and responsibilities using a consistent and structured layout supported by Bootstrap formatting.	/4

C3	Lists scope of operations, functions, or duties in a clear grouped format with readable hierarchy and spacing.	/4
C4	Highlights key roles, notes, or status information clearly using suitable Bootstrap-styled visual emphasis.	/4
D. Info & Guidelines Page (info.html) — 20 marks		
No	**Criterion**	**Marks**
D1	Structures the page using Bootstrap container and grid layout to organise content clearly and responsively.	/4
D2	Presents guideline/checklist content in a structured and readable layout with consistent Bootstrap styling.	/4
D3	Summarises deliverables, purposes, and required evidence in a clear tabular-style presentation aligned with the page requirements.	/4
D4	Emphasises important notices or categories clearly using consistent CSS and Bootstrap visual hierarchy.	/4
E. Contact Us Page (contact.html) — 20 marks		
E1	Constructs a responsive two-column Bootstrap grid layout separating contact information and enquiry section.	/4
E2	Presents contact information (email/phone/location and note) in a structured layout with clear spacing and readability.	/4
E3	Designs an enquiry form layout using appropriate HTML form elements styled consistently with Bootstrap.	/4
E4	Displays guidance or reminders related to enquiry submission clearly using consistent Bootstrap/CSS styling.	/4
	Total Marks	

UPROP INFORMATION

UNIT PENGURUSAN PROJEK PELAJAR

Unit Pengurusan Projek Pelajar (UPROP) ialah unit yang ditubuhkan bagi mengurus pelaksanaan kursus **Projek Akhir Pelajar** bagi program **Diploma Teknologi Maklumat (Pembangunan Digital)**.
UPROP bertanggungjawab terhadap **penyediaan, pelaksanaan, pemantauan dan pelaporan** projek pelajar sepanjang semester.

MATLAMAT PELAKSANAAN PROJEK AKHIR

Pelaksanaan kursus Projek Akhir berfungsi sebagai platform untuk pelajar:

- Mengembangkan potensi dan kebolehan profesional
- Mempraktikkan pengetahuan dan kemahiran yang telah dipelajari
- Menghasilkan hasil kerja yang berkualiti dan bermakna

Melalui kursus ini, pelajar diharap dapat meningkatkan keupayaan penyelesaian masalah secara kreatif dan kolaboratif ke arah melahirkan graduan yang **kompeten, berdaya saing dan mempunyai kebolehpasaran tinggi**.

OUTCOME UTAMA PROJEK AKHIR

Pelajar dijangka menghasilkan:

- **Artefak projek yang jelas**
  (produk / sistem / prototaip)
- **Dokumentasi berkualiti**
  (proposal, laporan akhir, logbook)
- **Pembentangan dan demonstrasi yang meyakinkan**

NILAI TAMBAH KEPADA PELAJAR

Sepanjang pelaksanaan Projek Akhir, pelajar akan membangunkan:

- Kemahiran kerja berpasukan dan pengurusan masa
- Komunikasi profesional dan pengurusan stakeholder
- Refleksi kendiri, iterasi dan amalan *continuous improvement*

CARTA ALIR PELAKSANAAN PROJEK

Pelaksanaan Projek Akhir perlu mematuhi proses dan prosedur yang telah ditetapkan dalam kurikulum program.
Carta alir pelaksanaan (rujuk halaman Index) menunjukkan gambaran keseluruhan aliran kerja Projek Akhir sepanjang semester.

TEAM UPROP (JTMK)

Struktur dan Sokongan Pelaksanaan Projek Akhir

UPROP berfungsi sebagai pusat penyelarasan bagi memastikan pelaksanaan Projek Akhir berjalan secara terancang dan konsisten.

Tahap sokongan proses (overview): 85%

SKOP OPERASI UPROP

- Koordinasi takwim dan milestone projek
- Penyelarasan pembimbing, semakan dan pelaporan
- Pengurusan dokumentasi dan eviden
- Pengurusan pembentangan dan penilaian mengikut prosedur

Good Practice:
UPROP berperanan sebagai **satu sumber rujukan pusat** bagi memastikan konsistensi proses sepanjang semester.

STRUKTUR TEAM UPROP (CONTOH)

(Template – boleh disesuaikan mengikut staf sebenar)

Penyelaras UPROP

Peranan: Koordinasi, takwim dan pelaporan

- Mengurus keseluruhan pelaksanaan projek
- Menyelaraskan standard eviden dan komunikasi rasmi

Dokumentasi & SOP

Peranan: Template, borang dan audit eviden

- Menyediakan template proposal dan laporan
- Memastikan dokumentasi lengkap dan konsisten

PEMANTAUAN & SEMAKAN

Peranan: Milestone dan semakan progres

- Menyelaras semakan berkala bersama pembimbing
- Membantu pengesanan isu (issue tracking)

PEMBENTANGAN & PENILAIAN

Peranan: Slot, panel dan rubrik

- Menyusun jadual pembentangan dan demo
- Memastikan proses penilaian mematuhi garis panduan

INFO & GUIDELINES

Rujukan Ringkas Pelaksanaan Projek

Bahagian ini bertujuan membantu pelajar menyediakan deliverables dan mengumpul eviden projek secara konsisten.

CHECKLIST UTAMA

Fokus kepada keperluan wajib sepanjang semester:

- **Proposal**
  Skop, objektif, metodologi dan timeline asas
- **Logbook**
  Rekod progres mingguan, isu dan tindakan ringkas
- **Artefak Projek**
  Sistem atau prototaip beserta eviden ujian
- **Laporan Akhir**
  Dokumentasi lengkap mengikut format program

RINGKASAN DELIVERABLES

Deliverable	Tujuan	Eviden
Proposal	Menetapkan skop dan hala tuju projek	Dokumen & semakan pembimbing
Logbook	Memantau progres dan keputusan teknikal	Catatan mingguan
Artefak Projek	Output utama yang boleh didemo	Demo / screenshot / test notes
Laporan Akhir	Dokumentasi akademik dan teknikal	Bab lengkap & lampiran

Nota: Keperluan sebenar mungkin berbeza mengikut program. Pelajar hendaklah merujuk garis panduan rasmi program masing-masing.

HUBUNGI UPROP

Untuk sebarang pertanyaan berkaitan **prosedur, jadual, dokumen dan pelaksanaan projek**, pelajar boleh menghubungi UPROP melalui saluran berikut:

Maklumat (Template):

- Email: uprop.jtmk@psp.edu.my
- Telefon: +60 4-XXXX XXXX
- Lokasi: JTMK, Politeknik Seberang Perai

Project Objectives

Ensure systematic project monitoring, provide academic supervision, and enhance students' technical competencies.

Learn More

Student Project Implementation Information

UPROP coordinates project registration, proposal approval, progress evaluation, and final assessment to ensure students complete their projects according to academic standards.

Project Implementation Flowchart

Step 1: Proposal Submission

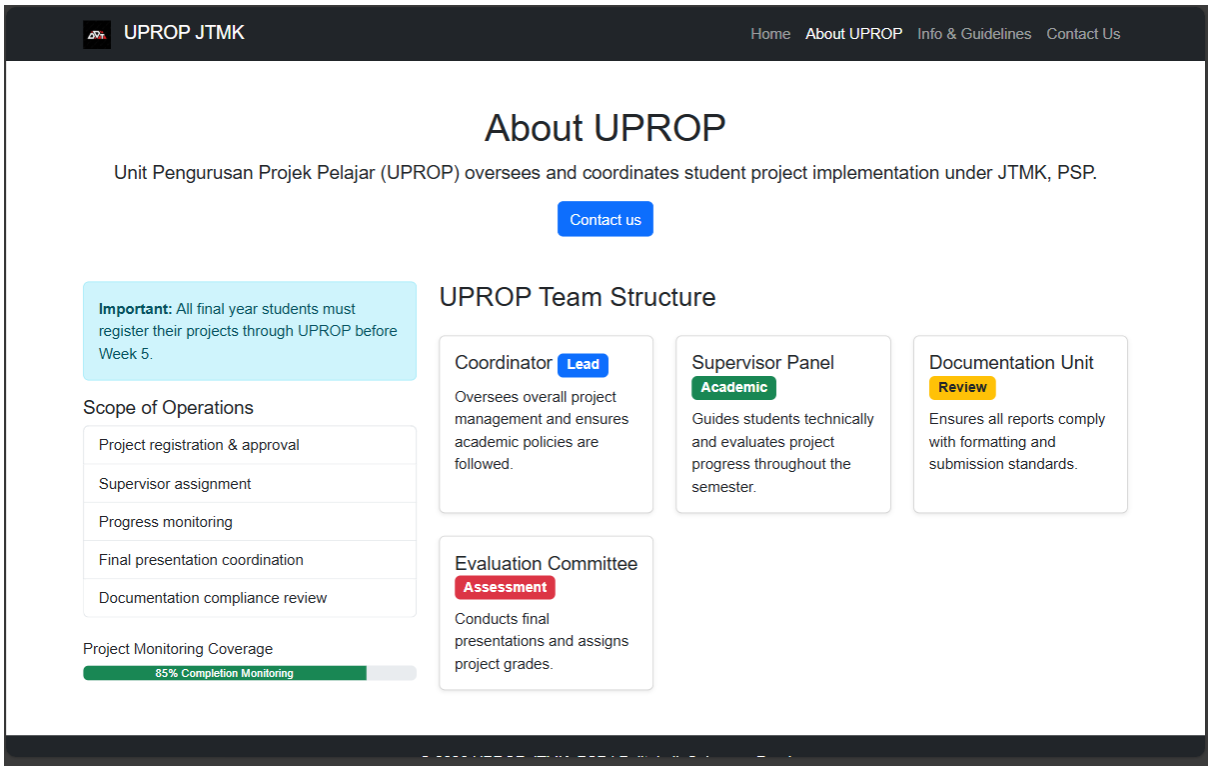
Students submit their project proposal for approval by the supervisor.

Step 2: Progress Monitoring

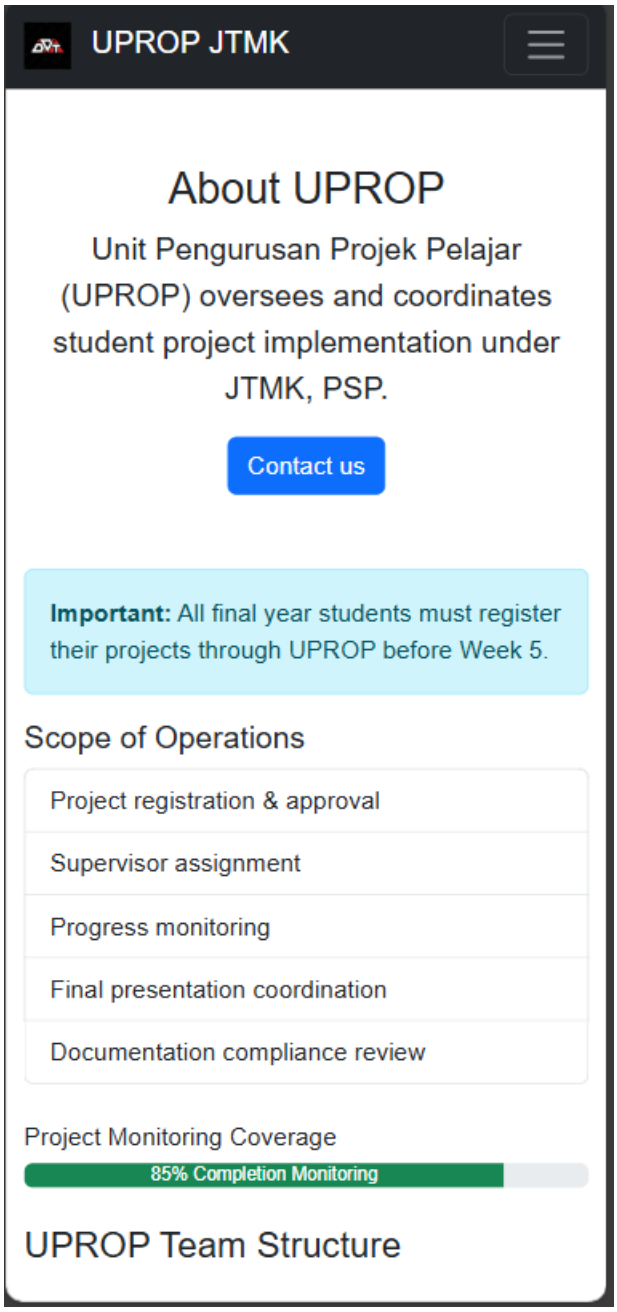
Step 3: Final Presentation & Evaluation

© 2026 UPROP JTMK, PSP | Politeknik Seberang Perai

About.html (DESKTOP VIEWS)



about.html (MOBILE VIEWS)



Documentation compliance review

Project Monitoring Coverage

85% Completion Monitoring

UPROP Team Structure

Coordinator **Lead**

Oversees overall project management and ensures academic policies are followed.

Supervisor Panel **Academic**

Guides students technically and evaluates project progress throughout the semester.

Documentation Unit **Review**

Ensures all reports comply with formatting and submission standards.

Evaluation Committee **Assessment**

Conducts final presentations and assigns project grades.

3.REFLECTION AND CONCLUSION

- **Group reflection write-up**, aligned with the *Conclusion / Reflection* section created in the website.

-what we learn as a team that we gotta work together as a team and spread our work evenly so that it is fair for every teammate

-challenges we faced as a team that we try to make the website layout and font look the same because every folder is made by a different person

-we solved the problem by getting on a call together and discussing what we should do

-skill we improved is teamworks and our skill of coding html and css also the implemantation of bootstrap in our coding

-we would try to plan first before doing the code and agree on which font and look is suitable so that the website look consistent
